

Docket #: S99-133

CMOS Video Sensor System with Improved SNR Under Low Illumination

Applications

- digital imaging systems

Advantages

- Large improvement in image quality

Patents

- Published Application: [20030058356](https://www.uspto.gov/patents/apply/patent-application-number/20030058356)

Innovators

- Xinqiao (Chiao) Liu
- Abbas El-Gamal
- Brian Wandell
- Jeffrey DiCarlo
